PROJECT EXPERIENCES

2nd Year Group Project

DMSKS (Drugs Management and Store Keeping System) for

DeSoysa Meternety Hospital .The system we implemented helps to manage drug transactions, stocks handling and further provides patient management functionalities up to a specified extent.
(This is network based system & we developed System using Visual Studio C# WPF

3rd Year Group Project

Adaptive and Dynamic UI Framework for Web Based System

Today web based systems are very popular and have many functions which exceeds user expectations. Therefore systems have become more complicated to end user. To address this issue we will develop a framework that can be used to develop user interfaces which can automatically adapt to user preferences..
